

# Chart Your End-of-Life Treasure Map™

Name/Date: \_\_\_\_\_

Every ADULT should have a “Treasure Map”! This is a gathering of important papers, records and instructions on how to locate all the valuable things and accounts in your life.

This is not just for “elders”, because we all know that sometimes people die in their 40s or 50s... or earlier.

There’s great relief in having compiled your very own **Treasure Map**. You can relax knowing that your wishes are clearly stated, that your records are complete, and that you’ve compiled everything in one place. Then you can set it aside, and GO LIVE YOUR LIFE.

(Since the **Treasure Map** contains private, personal information, it should be stored in what you deem to be a safe place.)

## Talk About It

A vital note: first, you’ve got to THINK about it... then YOU’VE GOT TO TALK ABOUT IT! Once you’ve clarified your wishes, you MUST chat with the person you’ve selected to be your Power of Attorney and the other important people in your life. TELL them what’s important to you and where you’ve stored your **Treasure Map**. Tell them how you want your later days 1 to go. Talk to your family, doctor, attorney...

And if you don’t do this for your own sense of “Ahhhhh”... do it to ease the burden your loved ones will bear after your death.

## Formats

There are many formats in which you can gather your **Treasure Map**:

**Three-Ring Binder** – Very flexible in its content. You can add and subtract pages, include photocopies of documents and avoid the bulky structure of a hard box, folders or a bound book.

**Bound Books** – There are many end-of-life planning books available online with amusing names. You can’t add/subtract pages or documents, but these books provide a good set of questions to answer.

**Next-of-Kin Boxes (NOKBOX)** – These are very handy as a large box full of file folders for you to fill. They’re very organized, but bulky.

Whatever manner you choose for your **Treasure Map**... Do it! This is critical.

## Checklists

Where do you start? The following are checklists to lead you in compiling your **Treasure Map**. Make copies of your documents to add to your **Map**. (A binder is most feasible.)

---

**Items listed in bold purple are ESSENTIAL.**  
Items listed in black are HIGHLY SUGGESTED.

## IDENTIFICATION

- Health Insurance Card**
- Medicare/Medicaid Card**
- Driver’s License**
- Social Security Card**
- Passport
